

Joy (Xuwei) ZHU

Data Analyst – Finance & HR | Power BI · SQL · Python

Bilingual English & Japanese · Fluent French · Native Chinese

Châtillon, France | +33 (0)7 62 00 71 50 | xuweizhu2023@gmail.com | xuweizhu.me

Data Analyst with two years' experience in Finance & HR analytics at SNCF Voyageurs, building Power BI dashboards used company-wide and automating reporting in SQL and Python — cutting processing time by 80%. Currently seeking a permanent Data/Business Analyst role or graduate programme from April 2027, ideally within Finance & HR transformation consulting.

EXPERIENCE

Data Analyst – Accounting & HR Division | SNCF Voyageurs | Saint-Denis, France

Fixed-term contract, October 2024 – April 2027 (available for a new role from April 2027)

- Design and maintain interactive Power BI dashboards for Executive Committee (COMEX) reporting, balancing HR priorities with financial constraints through a clean, intuitive interface
- Track payroll and personnel cost trends through variance analysis across all expense accounts, feeding directly into P&L reporting
- Built **SQL, Python, Power Query and Dataflow** pipelines to centralise heterogeneous data sources — cutting processing time by **80%** and automating complex reporting

Technical Translator | Talend (Qlik) | Suresnes, France

March 2022 – August 2022

- Delivered technical software localisation (English–Japanese) under strict release deadlines
- Coordinated product teams via GitHub within an Agile, international development environment

EDUCATION

Master's in Responsible Digital Transition & Co-design | CNAM

Graduated 2026

- Researched and improved an internal HR chatbot (LLM-based knowledge-extraction tool), analysing adoption metrics and redesigning interaction flows to boost response reliability

Master's in Japanese Studies | INALCO

Graduated 2023

Bachelor's in Japanese Interpreting | Shanghai International Studies University

Graduated 2019; exchange programme at Osaka University (Japan), 2017–2018
